Somfy Systems' Glydea™ ZigBee® Plug-In Module Now Available for Sale

Dayton, N.J. (May 24, 2012) – Somfy Systems, Inc., the world's largest manufacturer of motors for interior and exterior window coverings, today announced Glydea™ ZigBee® Plug-In Module is now available for sale. The Glydea ZigBee Plug-In Module provides embedded ZigBee control of Somfy's line of Glydea drapery motors for integration with third party automation systems.

The Glydea ZigBee plug-in module provides third party automation systems with total drapery control including open, close, stop, and the "My" Position – Somfy's customizable intermediate position anywhere between fully open and fully closed. The plug-in module easily attaches to the base of Glydea 35 and 60e motors for maximum performance and is compatible with the ZigBee Pro Stack feature set.

For more information about Somfy's ZigBee solutions, please visit www.somfypro.com/zigbee. Technical documentation as well as system drivers for third party home automation systems can also be found on the site.

About Somfy Systems, Inc.

Somfy, the world leader in manufacturing of specialized motors and electronic controls for residential and commercial interior and exterior window covering markets, has North American headquarters located in Dayton, N.J. For more than three decades, engineers at Somfy have been designing products to motorize interior and exterior window coverings such as interior shades, wood blinds, draperies, awnings, rolling shutters, exterior solar screens, projection screens and more. Somfy motorization systems are easily integrated with security, HVAC, and lighting systems, providing total home or building automation. For more information, visit www.somfysystems.com.
